Note: Information regarding which countries are under sanctions may be obtained on the U.S. Department of the Treasury website. Any attempt to log on to the Digital Platforms from one of these countries may result in your access being restricted and/or terminated.

Account Information and Protection. Use of certain areas or features of the Digital Platforms may require a user ID and password and is restricted to authorized users only. For your security, we may require additional confirmation steps or information to authenticate your identity or your status as a customer. Information regarding your access patterns may be collected and validated automatically, and a unique electronic signature may be created based on your specific access pattern.

Biometric authentication can be used to access the TD mobile applications, provided your mobile device has the functionality and it has been enabled on the device and application. TD does not control or have access to the biometric information stored on your device. If at any point you wish to disable biometrics for your TD mobile application, simply go to Settings in the mobile application to make this change. Manual log in may be required from time to time for security purposes by the provider of your biometric authentication solution. TD has no control over these activities.

One Time Passcode (OTP) authentication may be enabled as part of our Out-Of-Band Authentication Service. TD Bank offers digital customers a voice call or SMS mobile phone text message communications service to assist in authentication. Enrollment requires identification of the user's banking relationship as well as providing a phone number. The phone number's verification is done by the user receiving an SMS message or voice call with a verification code which will have to be entered on the website or mobile application. Once enrolled, you will be able to request a voice call or SMS with the one-time use code to any of the enrolled phone numbers when performing transactions that require additional authentication. This program will be ongoing and requires at least one verified phone number to be enrolled; otherwise, you will not be able to access the system. Enrolling additional phone numbers may require set up at a TD Bank location for authentication purposes. Authentication failures may require verification at a TD Bank location. Delivery of SMS messages and voice calls related to this program are only available in English. This service may not be available through all phone systems or wireless carriers. Message and data rates may apply. You can contact us at 888-751-9000 or send a text message with the word "HELP" to this number: 72585 (US) if you have any questions about the program.

To stop the SMS messages from coming to your phone, you can opt out via SMS. Just send a text that says "STOP" to this number: 72585 (US). You will receive a one-time, opt-out confirmation text message. After that, you will not receive any future SMS messages at this number. Should you need to receive a verification code at this number after stopping the SMS service, you will need to request it through a voice call or by deleting and re-adding the number to re-active the SMS service. Alternatively, you may request to receive the code at another number you have enrolled in the program.

In accordance with our Privacy Notice, you acknowledge that in connection with your use of Out-of-Band Authentication Services, TD Bank and its affiliates and service providers may receive names, domain names, addresses, passwords, telephone and device numbers, the content of messages, data files and other data and information provided by you or from other sources in connection with Out-of-Band Authentication Services or the Software (collectively "User Information"). TD Bank and its affiliates and service providers will maintain reasonable safeguards to protect the information from unauthorized disclosure or use, but reserve the right to use and disclose this information as reasonably necessary to deliver Out-of-Band Authentication Services and as otherwise permitted by law, including compliance with court orders or lawful instructions from a government agency, to protect the personal safety of subscribers or the public, to defend claims, and as otherwise authorized by you. TD Bank and its affiliates and service providers also reserve the right to monitor use of Out-of-Band Authentication Services and the Software for purposes of verifying compliance with the law, these terms and conditions and any applicable license, but disclaim any obligation to monitor, filter, or edit any content. You agree not to knowingly or willfully use Out-of-Band Authentication Services or the Software in or for any illegal, fraudulent, unauthorized or improper manner or purpose and will only be used in compliance with all applicable laws, rules and regulations, including all applicable state, federal, and international Internet, data, telecommunications, telemarketing, "spam," and import/export laws and regulations, including the U.S. Export Administration Regulations.

If you permit any other person or other party to use your account number, username, or password, you are responsible for any transactions and activities authorized from your account. If you believe someone may attempt to use or has used your account without your permission, or that any other unauthorized use of your account number or password or security breach has occurred, you must change your password. It is your obligation to immediately notify us if you believe unauthorized access or use has occurred.
